“Vaccinating” the planet with a bioweapon with near-100% mortality would do the trick. Baxter would provide both the bioweapon as well as the vaccine against it to “civilized” Western peoples. Result: We can plunder Africa, we have no more competition from SE Asia, the oil is for our taking and only Western and perhaps Chinese sheeple remain.

Rockefeller said this in 1994 at a U.N. dinner: “We are on the verge of a global transformation. All we need is the right major crisis, and the nations will accept the New World Order.” PNAC said something similar right before 9/11.

A Spanish Doctor in Internal Medicine largely agrees with the above article.
