Swine Flu Vaccine is a Biological Weapon

The swine flu scare with government support presents an enormous profit potential for the pharmaceutical industry. The number of immediate outright deaths from the vaccines will probably be limited, though it will be no consolation to those that perish. The worst suffering will be going on for decades with a myriad of serious chronic conditions that will keep bringing in the profits as victims seek help from the people that poisoned their bodies.

Welcome to fascism.

It looks like governments around the world will either force these vaccinations on the public or launch a massive propaganda campaign to trick you into submitting to a jab. If they attempt to force these untested and essentially experimental vaccinations on you, cite the Nuremberg Code, which states: "The voluntary consent of the human subject is essential." No experimental vaccine should be "conducted where there is an a priori reason to believe that death or disabling injury will occur, except, perhaps, in those experiments where the experimental physicians also serve as a subjects." In addition to the "experimental physicians" submitting to their own toxins, Obama, every member of Congress, the CEOs of the drug companies, all members of WHO and the United Nations, all members of the CFR and Bilderberg, etc., should submit to a jab. A third party should be on hand to make sure these folks do not get a saline injection instead of the vaccine:

CDC plans mass vaccinations

ATTENTION, Please: The WHO has declared swine flu (N1H1) pandemic. This will probably imply governmental demands for universal mass vaccinations under penalty for not complying. Flu vaccine contains squalene oil as an adjuvant.

Micropaleontologist Dr. Viera Scheibner conducted research into the adverse effects of adjuvants in vaccines and wrote: Squalene "contributed to the cascade of reactions called " Gulf War syndrome. GIs developed arthritis, fibromyalgia, lymphadenopathy, rashes, photosensitive rashes, malar rashes, chronic fatigue, chronic headaches, abnormal body hair loss, non-healing skin lesions, aphthous ulcers, dizziness, weakness, memory loss, seizures, mood changes, neuropsychiatric problems, anti-thyroid effects, anaemia, elevated ESR (erythrocyte sedimentation rate), systemic lupus erythematosus, multiple

sclerosis, deadly Amyotrophic Lateral Sclerosis, Raynaud's phenomenon with paroxysms of lack of blood in fingers and toes in fingers and toes, Sjorgren's syndrome with blurred vision, chronic diarrhea, night sweats and low-grade fever."

Wikipedia A study linking squalene, as experimental vaccine adjuvant, to individuals with the clinical signs of Gulf War syndrome was published in 2002. A U.S. Federal Judge ruled that there was good cause to believe aqualene to be harmful, and he ordered the Pentagon to stop administering it in October 2004.

Matsumoto says "Squalene is a kind of trigger for (a) real biological weapon," what Soviet researchers called "a biological time bomb!!" He and Dr. Pam Asa conclude that "Oil adjuvants are the most insidious chemical weapon ever devised," including ones with squalene. So what American scientists conceived as a vaccine booster (or what's now being developed in labs) was another 'nano-bomb,' instigating chronic, unpredictable and debilitating disease. Using squalene in vaccines is outlandish and criminal.
